1. T/O POSITION

It is planned to fill the T/O position of Chemical Advisor to the Chief, Chemistry Division/SI, but it will take some time to recruit the type of individual that is needed. The use of [] as a consultant for five days a month is necessary in order to minimize the loss to the Chemistry Division of his services, which have been outstanding, and to provide for a continuity of operations when a suitable replacement is obtained. It is then planned to reduce the amount of time to one or two days per month as soon as possible. Travel expenses will be kept to a minimum by using [] for a continuous period each month.

25X1

2. FEE ARRANGEMENTS

The international background and substantive ability of [] are such that we would expect to pay \$50 per day for his services and would have done so if he had been appointed originally as a consultant. During the course of his service with this office, he has acquired an additional knowledge of intelligence problems and the intelligence process that is rarely found in the usual consultant, who has been appointed primarily for his substantive knowledge. Were it not for reasons of health, [] would continue in his present position.
